DR. Fresh

www.drfresh.com

DR. Fresh, one of the fastest growing oral care companies in the U.S., is a multinational company with distribution in over 35 countries worldwide with major offices in London, UK and Schenzhen, China. Headquartered in Los Angeles, California, the company offers consumers over 250 quality and affordable personal care products. Innovation in new product development has been the foundation of the company's steady growth and success. The DR. Fresh mission is to provide innovative, high quality and affordable personal care products that exceed consumer expectations. The mission includes being the leader in the oral care category through fully understanding and addressing consumer needs. Dr. Fresh already has the number 1 selling kids' toothbrush called the Firefly® in the USA. Dr. Fresh also has an impressive portfolio of licensed brands. More information can be found on www.drfresh.com

Grosvenor UK

Grosvenor Consumer Products Ltd is a health and beauty company specializing in licensed kids and adult toiletry products. We are looking to grow even further through increasing our breadth of distribution and depth of product line throughout both the UK and Europe. The company is owned by Dr Fresh, Inc but retains its individuality and autonomy being based in a separate UK location. This gives Grosvenor the flexibility and innovation of a small company, backed by the stability of a larger US organization.
